PRESIDENTIAL PARTY IN BOAT COLLISION

Light House Tender and Fruit Laden Steamer Collide.

ROOSEVELT WAS NOT INJURED

While the Government Boat Was Conveying the President to the Place Where the Cruiser West Virginia Was Stationed, Accident Occurred.

New Orleans, Oct. 28.—After a narrow escape from losing his life in an early morning collision in which the light house tender Magnolia, on which he was traveling, was so much disabled that he had to abandon her president, Roosevelt is now safe on the revenue cutter Ivey, which is carrying him to the armored cruiser West Virginia. The president nor any member of his party injured in the accident.

Details of the accident are not complete, but immediately it ocurred, hurry orders were received at Pilot Town where the revenue cutter Ivey was lying to proceed at once to the scene and take the president and his party to sa.

The Ivey passed Pilot Town with the president on board at 8:15 on her way to the West Virginia. She was then within an hour and a half of reacaing the cruiser's side.

The first news of the accident reached New Orleans by telephone at an early hour this morning, coming in the shape of an appeal for help from Captain Rose, of the United Fruit company's steamer Esparta, which was the vessel reported in collision with the Magnolia.

Captain Rose gave no details except that the boats had struck each other, that the president was uninjured and that the Esparta might have to take him aboard and carry him to the mouth of the river.

The message came from Nairn, La., near which point the accident occurred. The Magnolia left here at 6:30 last night and the Esparta was due to arrive today at Chalmette. The weather was fine, wih comparatively little wind on the river. In his report Captain Rose gave no details of the accident, but said that the Magnolia was ashore. Immediaetly upon the receipt of the news communication was opened with tug owners here and the powerful tugs R. W. Wilmot and D. D. Wood left New Orleans shortly after 4 o'clock this morning with orders to go at full speed to the scene of the accident.

Meantime, however, the president's party had managed to get in communication with the lower part of the river where it was known that a revenue cutter Ivey was lying. At 1 o'clock the operator at Pilot Town was running up by Major Craighill with orders that the Ivey should be sent to a sixty-mile point with all possible speed. The Ivey got immediately under way and covered forty miles distance in rapid time.

President Roosevelt, Secretary Loeb and Surgeon Rixey, with the baggage were, at once transferred and the Ivey proceeded down the river.

At 8:15 the Ivey passed Pilot Town on her return, signalling that the president and party were on board, and that were well.

The cruiser West Virginia was lying a mile and a half off the passes, and the Ivey was expected to reach her side at 9:45. The West Virginia is equipped with wireless telegraph and has been in communication with the wireless station here. The fact that the president's transfer to the cruiser will [illegible] reported as soon as he is safe on [illegible] the cruiser.

[illegible] 9 o'clock, the Ivey with the presidential party reached Port Eads with President Roosevelt and his party on [illegible]. The cutter did not stop, but immediately pissed out into the gulf. The West Virginia was in plain view. The cutter quickly covered the distance separating the two vessels and the Ivey approached a presidential [illegible] sounded from the warship. The [illegible] of the transfer after the Ivey reached the big ships side was a matter of but a few minutes, [illegible]

er being fine and clear with little sea running. At 9:40 the president stepped on board the West Virginia safe and sound, after his strenuous experience here and on his trip down the river.

The West Virginia had lifted her anchors and before 10 o'clock had started on her journey up the coast.

YELLOW FEVER SITUATION.

Two New Cases and Two Deaths at New Orleans, La.

New Orleans, Oct. 28.—Two new cases and two deaths from yellow fever was reported up to noon today.

Little interest was today displayed in the fever situation, all attention being attracted to the news of the accident to the tender carrying President Roosevelt.

Further advices of opening the quarantine continue to come and it is considered probable that the few bars will remain after Nov. 1. There is a steady revival of business, not only in the city, but in all the surrounding country.

The end of the week is expected to see the withdrawal of most of the forces under Surgeon White. Dr. White is to remain here indefinitely.

One New Case at Natchez.

Natchez, Miss., Oct. 28.—Forty refugees reutrned this morning. Ten patients still remain under treatment. One new case, a scarlet woman, was reported this morning.

LIVES MENACED BY EXPLOSIONS

Firemen Bravely Fought and Subdued Flames Amid Great Danger.

New York, Oct. 28.—In momentary danger of being killed or maimed by the frequent explosions, the firemen fought early this morning, one of the worst fires for weeks and which destroyed the six-story buildings at No. 18 and No. 20 DesBrosses street, occupied by the Crown Cordial and Extract company and others.

The loss is estimated at $200,000. As the firemen were raising the ladders, the reports of the explosions of the alcohol and spirits stored in the building were almost constantly.

Every few minutes a heavier explosion like the report of a 12-inch gun would rock the entire building. The occupants of the building included the Baxter Manufacturing company, the Thompson Petit Manufacturing company, B. A. Van Horn, a manufacturer of cut-glass, and Julius Cohen's California Essential and Distributing company. The last two firms were completely burned out.

TO DESTROY THE BOLL WEEVIL.

Cotton Protecting Kelep of Guatemala Will Check Pest Ravages.

Washington, Oct. 28.—Announcing the results of the recent investigtaions of the future of the cotton protecting kelep of Guatemala, a report now being issued from the department of agriculture declares kelep to be wonderfully adapted to the destruction of the cotton boll weevil and portrays its possibilities in checking pest ravages.

"It is," the report says, "a new and efficient insectiverous animal in all probability capable of use for protection of cotton and other crops in many tropical and sub-tropical regions, whatever may be the ultimate results of the present effort to naturalize it in Texas."

The report adds: "It is still impossible to protect the fae in a new country of an insect which has so recently become an object of scientific study but it seems certain that the social organization of the species does not disqualify it for a future of agricultural utility."

Life Imprisonment for Negroes.

Atlanta, Oct. 28.—The last of the negroes who were charged with participating in the riot which occurred on a Southern railway excursion train, between Atlanta and McDonough, were convicted in the superior court of Henry county, Judge Freeman presiding for Judge Reagan. Aurelius Hall, Cleve Sutton and Bob Cochran were sentenced to life imprisonment in the state penitentiary on the charge of murder. They were the three leaders in the riot, and the negroes in whose [illegible] the trouble was started.

ORDER SOLDIERS TO SHOOT DISTURBERS

Russians Are Warned to Refrain From Rioting.

SITUATION DOES NOT IMPROVE

The Strikers in St Petersburg and Other Cities Seem To Be Quiter Than Usual, but the Authorities Fear an Outbreak at Any Moment.

St. Petersburg, Oct. 27.—1:30 p. m.—Warnings to the people that in case of disorder the soldiers will fire ball cartridges are posted on every street corner today. The city is calmer on the surface under the rigorous measures adopted. General Trepoff in order to restore confidence, directed all shopkeepers to take down the boards from their shop windows during the night and this morning the city awoke to find the shops re-opened.

Little squads of soldiers are scattered along the streets and in the markets to preserve order. Even detachments of the crack guards are doing patrol duty. Nevertheless beneath the surface there is much excitement. The revolutionists have spread the tidings that a revolution has begun, and the city is filled with the wildest rumors. For example, a story is afloat that a provisional government has been established. Better classes are afraid to venture out. Many meetings have been held during the night.

At a meeting of delegates from the profession unions, comprising doctors, druggists and lawyers, it was decided to strike from Oct. 28 until a constitutent assembly is summoned.

The latest advices from Minsk, and Saratoff, are disquieting. With a single exception newspapers of Kieff have declared in favor of a strike. All the drug stores in Saratoff are closed and that town is without artificial light, and no newspapers are appearing. The Saratoff town council has organized a committee for the protection of the citizens. The street cars in St. Petersburg have ceased running, and the express employes of the bureaus of ways and communication and even the bank and office employes, have agreed to affailiate themselves with the movement. The printers have resolved upon a unique demonstration to voice their demand for a free press. They have decided not to print a single regular newspaper tomorrow but instead to publish clandestinely an uncensored paper for distribution by the workmen containing the demands of the protelariat for a constitutional assembly.

Just when reports were abroad that freedom of assembly would be granted a bad impression has been created by the publication of the Official Messenger of a belated set of "temporary" regulations, three columns in length, dealing with the right of assembly, which will require from three to seven days' notice to the police of the object of the meeting with the names of the speakers, etc. Then if permission is granted, the police are empowered to close the meetings if opinions are uttered which are supposed to threaten public order.

The news from the interior is meager. The situation has not improved. According to reliable reports the troops attacked Hartoff, settled with the students and strikers. In many places the schools are closed. The high school girls of Peloff walked out this morning.

The Russ, leading organ of the Constitutional party, declares that power will not satisfy the people unless the people are given control. Only absolutely solid guarantees for the future, the paper declares, can now avail to reassure the people that the czar will not repeal the measures.

Telegraphic Communications Severed

Warsaw, Oct. 28—Telegraphic communication between Warsaw and St. Petersburg, Moscow and Berlin was severed today in consequence of a fire in the telegraph office, caused by the using of electric wires.

The strike is in full swing at the factories and the artisans are supporting the employers of the banks and insurance and commercial houses to leave their work. The shops are still open. The workmen are holding meetings without interference on the part of the police.

Warsaw in Flames

Thorn, Prussia, Oct. 28.—A message from a reliable source in Warsaw received here today says that an incendiary fire which started there last night has not been extinguished and that one part of the city is in flames.

Street Car Employes Srike.

Lodz, Russian Poland, Oct. 28.—The employes of all the local factories and street car lines, including the suburban lines, have all struck.

MAN CHARGED WITH BIGAMY.

Marries Woman Without Securing a Legal Separation from First Wife.

Montgomery, Ala., Oct. 28.—W. M. McCullom and Ada Belle Moore, the latter claiming Atlanta as her home are in a bad fix at the office of the sheriff.

They have been brought back from Mobile on a charge of bigamy on the part of the man. It seems that they were married several days ago at the home of the woman here. They left at once and wife No. 1 sent for the police. A warrant was sworn out and a move made to catch them, which resulted in success.

When brought back McCullom admitted that he had not secured a divorce from his wife, but said that they had not been living together and he thought that he had provided for the legal side of it. The woman says she knew nothing of the other woman and went into the matter blindly.

McCullom said he was once divorced from his wife, but later, while drinking, went back and induced her to marry him again. He, as well as the woman, claims Georgia as his home.

DRUNKEN MAN KILLS WOMAN.

Conductor on Street Car Shoots at a Man but Bullet Went Wild.

Savannah, Ga., Oct. 28—E. A. Moore a conductor for the Savannah Electric company, in a drunken rage Thursday afternoon, drew a revolver of heavy caliber and opened fire upon C. R. Seckinger, a passenger, aboard his car. One bullet struck Mrs. Leila Wheeler, wife of F. F. Wheeler, as she sat on the steps to her home, No. 207 Broughton street, east. The bullet entered her jugular vein, severing it and three minutes after she was struck she was dead.

Seckinger received another bullet in the leg, above the knee. He was taken to the hospital. Mrs. Jane E. Fairchilds sustained a broken shoulder in jumping from the car.

Several others were bruised through the precipitancy with which they left the car when the bullets began to fly.

Moore is in the police barracks charged with murder.

Negro Assailant Still at Large.

Atlanta, Oct. 28.—Between 80 and 100 men, headed by George Moore and his sons, Cliff and John, County Policemen Cheshire, Matthewson and Walters, and Tom Donaldson, the latter with his dogs, are now following a trail along Nancy creek, two miles from Buckhead, and four miles from the Moore home. All that swamp has also been examined carefully. The posse, fully armed and mounted, left the Moore home before day. At sunrise the dogs bayed someone on Nancy creek, and struck the trail. It is believed now that this is the correct trail, and that the negro will be found somewhere in this neighborhood.

No Indications of Conciliation.

Chicago, Oct. 28.—The rival interstate commerce law conventions resumed sessions in Steinway hall and Studebaker hall today without much if any, indications of a conciliatory spirit. On the contrary the individual discussion of the matters which had divided the delegates and which brought about the split yesterday, appeared only to intensify the bitterness. All prospects of consolidation of the two conventions seemed to have vanished.

NORWEGIAN THRONE REFUSED BY SWEDEN

King Oscar Will Not Allow His Son to Ascend It.

WRITES LETTER TO STORTHING

Stating that He Believes It To Be for the Best Interest of Both Norway and Sweden that All Connections Be Entirely Severed

Stockholm, Sweden, Oct. 28.—King Oscar has definitely and formally declined the offer of the Norwegian throne to a prince of the house of Bernadotte, and in a letter to the president of the storthing finally severs his connection with Norway. The letter, which is dated Oct. 26, is as follows:

"After having, in the name of Sweden, recognized Norway as a state completely separated from Sweden, I inform you of my decision to relinquish the crown of Norway which, notwithstanding all my good intentions, has given me in the course of years to many bitter cares. Moreover, I could no longer wear it to the benefit of the country, now that the illegal decision of the storthing has rendered illusory, even the supensive veto of the king; but I desire on the welfare of the country and the nationa towards which I have entertained a sincere affection ever since my youth and to the happiness of which it has always been my heart's desire to contribute so long as the means at that end could be reconciled with the duties entailed by my position as king of both countries of the Scandinacian peninsula. In view of the turn the mutual relations between the two countries have taken, I cannot talnk it would be conducive of the happiness of either Sweden or Norway that a prince of my house should accept an election to be king of Norway. Assuredly there would not fail to arise in both countries a feeling of distrust which would operate as much against him as against me. This distrust might only too easily become an obstacle to the improvement of the mutual sentiments of the two nations, unfortunately separated henceforth, whereby I hope to see pacific relations assured between them in a not too distant future. I cannot, therefore, accept the storthing's offer. I thank you all with all my heart, and who, during my reign have faithfully served me and Norway, and who may even now entertain kindness for their former king. Bidding them farewell, I cherish sincere good wishes for them."

GOVERNMENTAL INSURANCE.

Question Is Being Discussed as to Its Probability.

Chicago, Oct. 28.—A dispatch to the Tribune from Washington says:

"Shall the United States government go into the insurance business?"

This question was asked with a good deal of force at the opening of congress. Individual representatives from different districts, including widely separated sections of the country, have indicated their intimation to introduce bills regulating life insurance and even fire insurance business. Inquiries have been made of the bureau of corporations at the department of commerce and labor and other investigators have been studying methods in the office of comptroller of the currency.

There will be a number of bills introduced at the opening of congress which will sweep away all intermediate steps and will provide that the United States government shall go into the life insurance business and into the fire and marine insurance business as well if such a thing be possible.

Sun Spots Have Disappeared.

San Jose, Calif., Oct. 28.—The Rev. Father Jose Richard, the Santa Clara college astronomer, announces that the group of sun spots under observation for the past few weeks have disappeared. He predicts its reappearance on the western rim of the sun. These spots differ from the previous appearance in that it is a single spot, not a group.

SEVERAL PERSONS PERISH IN FLAMES

Railroad Hotel at Little Rock, Ark., Burns to Ground.

SIX BODIES HAVE BEEN FOUND.

The Ruins Have Not Been Thoroughly Searched and It Is Believed More Victims Will Be Found—Lamp Explosion Supposed To Be Cause.

Hot Springs, Ark., Oct. 27.—Six bodies have been taken from the ruins of a railroad hotel located at the corner of Elm and East Olive streets which was gutted by fire early today. Of these two unidentified are charred beyond recognition. The dead are:

Harry Bradley, a waiter.

Edward Snyder, porter.

Mrs. Mack, a musician.

A. L. Mann, railroad conductor, believed to be from Denver, Colo.

Two unknown men.

The ruins have not yet been thoroughly searched, and there may be other bodies in them.

The hotel is a two-story frame building, containing thirty rooms, all but one of which was occupied by from one to four people.

The hotel was patronized by invalids and cripples, who were under treatment.

The fire is believed to have been caused by an explosion of a lamp. There was only one narrow exit, that being a stairway, and dozens were compelled to jump from the second story in many instances in their night clothes. One man, Fred Owerson, of Hot Springs, was probably fatally injured.

The loss to the building was small and amounted to only $2,500.

TAFT NOT PLANNING TO RUN.

Reported that Present Secretary of War Is Not Presidential Candidate.

Washington, Oct. 27.—The Post said today that Secretary of War Taft is not planning to enter the campaign for the presidency, has no intention of doing so, is content with his seat in the cabinet and means to stay there as long as the president desires it.

Such is the substance of an announcement made by him yesterday, and which will tend to put at rest temporarily, at least, the talk of his being a candidate for the presidency.

Secreary Taft is quoted as follows:

"I have no intention of resigning from the cabinet to make a campaign for the presidency, and, furthermore, I have no intention whatever of making a campaign for the office of the nation's chief executive.

"I am satisfied with my present place and shall be pleased to remain in the cabinet as long as I can. I have already said that I had no intention of becoming a candidate for the presidency, and authorize no one to spring the 'presidential boom,' as it has been called."

The Post adds that Secretary Taft's statement was called forth by published reports in connection with his recent Akron, O., speech, that he has presidential ambitions.

WILL GO TO LIVE OAK.

J. O. LaFontisee Will be City Editor of New Morning Paper There.

From Saturday's Daily Sun.

John O. LaFontisee arrived in the city yesterday from Live Oak, where he has been for the past two or three days.

Mr. LaFontisee has arranged for the publication of a daily edition of The Suwannee Democrat, which has always been one of the best and most progressive weekly publications in the State, and on Tuesday morning, November 7th, The Daily Democrat will be launched.

Mr. LaFontisee, who has had the advantage of broad journalistic experience, is one of the best and most energetic writers in the State, and it is needless to assure the people of Live Oak that they will have one of the best dailies in Florida.

Mr. LaFontisee will remain here today, and tomorrow will proceed to Hawthorn with his wife to spend a few days with her relatives, Judge and Mrs. Stringfellow.

FIRST MONTH'S WORK

Of the University High School Was Closed Friday Afternoon.

The first month's work of the University High School was closed Friday with very encouraging success, being the most successful of any preceding year, same period.

Prof. T. F. McBeath, principal of the high school department, reports an enrollment in this department of one hundred and twenty-five, and the result of the month's work is very creditable. Prof. McBeath, however, reports that this department is entirely too crowded, and more room is badly needed. It has been suggested that the county purchase the Seminary building, which would make an ideal place for a public school, the building being particularly adapted for that purpose.

"NEW THOUGHT" UNIVERSITY.

Wife of Former Congressman Gives $1,000,000 to Establish School.

Chicago, Oct. 27.—A Tribune dispatche from St. Louis, Mo., says that if plans of Mrs. Charles F. Joy, wife of the former St. Louis congressman are carried out, a $1,000,000 university of which the object will be the study of occult and psychic phenomena, the human soul and all the arts and sciences of the "New Thought" not recognized by established schools, will be built overlooking the Pacific near Santa Barbara, Cal. In addition to the university, Mrs. Joy proposes to establish a sociological colony where the science of life and the laws, duties and responsibilities of parenthood will be studied.

"My plan is," said Mrs. Joy, "to bring about the founding of a university in which the great trinity—the human soul mind and body—will be properly trained, each in conjunction with the other and not the sacrifice of one by ignoring the other, as now too largely prevails."

BIG STRIKE IS AVERTED.

Operatives and Mill Owners Will Compromise at Fall River.

Fall River, Mass., Oct. 27.—At the very moment when a strike of more than 25,000 textile operatives, employed in 75 mills in this city, seemed certain, the situation was suddenly cleared by the action of the Manufacturers' association and the outlook tonight is brighter than at any time since the wage question has come to the front.

Meetings of the various textile workers' unions had been called for tonight to take action on the question a strike in all the cotton factories controlled by members of the Manufacturers' association. Late this afternoon, however a committee representing the manufacturers held a conference with the committee from the textile council. The manufacturers expressed the hope that a compromise might be reached and requested that the unions not take action on the matter of calling a strike before next Monday night. This request was made, it was explained, in order that the manufacturers and the operatives, through their representatives, might hold further conferences.

In Tuskegee, Ala., the platform from which President Roosevelt addressed the citizens of that place was valued at $30,000, being made of bales of cotton.

The yellow fever may be the means of bringing more people to this section than ever, as many will not go to New Orleans for that reason, although there is no danger.

Eight States will hold elections on November 7. They are Maryland, Massachusetts, New Jersey, Ohio, Pennsylvania, Rhode Island, South Carolina and Virginia.

There are thousands of people in the North that would come to Florida to reside if they only knew of the abundant resources of this State. They have an idea that half the land is under water.

It is expected that the General Assembly of Iowa will be asked this winter to pass a bill requiring life insurance companies to make a distribution of profits to policy-holders not less than once in five years, and also a bill requiring the investment in Iowa of a certain part of the receipts from Iowa policy-holders.

It is reported that the German ambassador, who is expected to arrive at Washington soon, will seek to open formal negotiations looking to a commercial treaty between Germany and the United States. This is regarded at Washington as an indication that Germany appreciates the necessity of assuming a more conciliatory attitude towards this country.

NOT A BUSINESS WAY.

Every now and then somebody starts a discussion as to whether the Postoffice Department is run in a business-like way. It can be settled in half a minute by a simple statement. The postoffice is not business-like, because it refuses knowingly to lend itself to fraud, although the fraud offers it revenue. A gentleman wishes, let us say, to start the boldest and most transparent kind of a get-rich-quick swindle, promising investors ten per cent a month, or any other return that his exuberant fancy may dictate; or, for a modest consideration, he proposes to sell infallible tips on stocks or horse races; or he desires to market at ten cents a share mining stock that he will redeem at fifty cents a share a month hence. He has no difficulty whatever in discovering some bank that will accept his account, nor in finding some moral newspaper that will print his advertisements.

Banks with every appearance of respectability have been known to lend themselves as references to the grossest of frauds. There are not many newspapers in the columns of which you will not find advertisements which even a detective would know to be swindles. The lottery business was carried on through thrifty express companies long after the Government had shut it out of the mails. It made a great stir when somebody pointed out that an important part of the revenue of the telegraph companies came from illegal pool-rooms and bucket shops. But that was business. Only when the swindle comes to the postoffice does it run against an institution that will not accept its money and assist in the thieving. Perhaps Congress should investigate this.—Saturday Evening Post.

UNPARALLELED PLUNDER.

"Why all this hullabaloo about life insurance extravagance and corruption. Every policy has been paid upon maturity, whether by death or otherwise, and will continue to be paid. What more can be asked?" is the triumphant declarations of the life insurance managers that have been found out and are now on the grill.

A statement better calculated to exasperate and embitter policy holders cannot be conceived. After squandering millions of dollars upon officials, favorites and pets; in buying political pulls from easy-virtued United States Senators and other public officials; in corrupting Legislatures; in contributing by the hundreds of thousands of dollars to the corruption funds of at least one political party; in extravagance of management unparalleled in financial history; in hundreds of thousands put into the hands of servants and no accounting ever asked for; and after all these, and more, to have hundreds of millions of "surplus" left to be used in the schemes invented by "frenzied finance" to plunder policy holders and others outrageously and finally to boast that there is enough money left to pay all death losses and annuities as they mature, is equivalent to telling policy holders in the most brutal way possible that they have been robbed as if by a gang of brigands. If policy holders had been required to pay only the legitimate expenses of conducting the life insurance business all those squandered millions and the gigantic and predatory "surplus" would be in the pockets of policy holders. The whole mass constitutes a scheme of plunder unparalleled.

NEW TURPENTINE PROCESS.

In speaking of the plants for the extraction of turpentine from pine waste, Mr. S. B. Ross of The Jacksonville Times-Union says that the two plants recently put in by the Pure White Turpentine Company at Live Oak have proven a complete success. In speaking what one of these plants can do, it is said that a plant that can handle 50 cords of fat lightwood a day will easily turn out 15 barrels, or 700 gallons, of turpentine in 12 hours. At a conservative estimate that turpentine is worth $3.50, which is as much as you can produce by going into the woods and boxing standing timber with a force of 120 men, to say nothing of the teams required. By this process a result identically the same is arrived at by employing only 10 men. Any saw mill that cuts 60,000 feet of lumber a day, can by using one of these plants produce from its waste as much turpentine as can be gotten out of 25 crops in the open woods with a force of 60 men. The product, of course, depends upon the material used. Fat lightwood will give about 15 gallons of turpentine to the cord. Ordinary pine logs about 12, and kiln-dried shavings about 7 gallons. Ordinary sap slabs will yield about 5 gallons to the cord. So one can see easily enough that one of these outfits is worth at least $20,000 a year to any saw mill man in the State.

IN THE RIGHT TIME.

The London Financial News, writing of the investigation of the life insurance companies, says that the chief result of the investigation, thus far, is to show that "graft permeates high financial circles quite as generally as it does the lowest class of political circles." It goes on to say that "it is probably a safe assertion that every large financial institution in New York would show the same amount of graft if an official Legislative committee could be appointed to investigate, with the same power as that now looking into insurance affairs; and in the case of railroads and similar corporations the entire situation is honeycombed with graft."

These are strong words to appear in one of the leading financial publications of Europe, says The Wall Street Journal. Such a foreign view as this of the administration of American corporations is most unpleasant to contemplate. If entertained generally in business circles in Europe, it would have a depressing effect upon the standing of American securities and credit abroad, were it not for the undisputed fact of the enormous prosperity of American business. The graft in our corporations, even though it may have gone as far as The London Financial News, has not gone so far as to unsettle the foundations and disturb the solvency of our business institutions. This fact it is necessary to reiterate time and again because it is the saving clause of the situation. The graft has been disclosed just in the right time.

HOMESEEKERS COMING.

Wilbur McCoy, agricultural and immigration agent of the Atlantic Coast Line Railway Company, returned yesterday from an extensive visit through the Northwest, says The Times-Union.

While in that section Mr. McCoy distributed about 10,000 circulars, advertising the cheap homeseekers' rates to Florida, via the Coast Line, which has already brought several hundred settlers to the State.

"I am positive," said Mr. McCoy, "that on November 14, when our second homeseekers' excursion is run to Florida, we will bring several hundred settlers. The eyes of many prominent farmers are turned toward Florida, and I have been assured that many will settle here.

"Upon the arrival of the second excursion I am going to make an effort to get several of the most prominent members of the party to visit the State Fair at Tampa, so that they can get a fair idea of what Florida raises."

The Industrial Edition of The Gainesville Daily Sun will be on hand for distribution at the Fair, and it will no doubt attract some of these homeseekers to our county. It will have much of interest in its pages regarding the products of Alachua county. It will be a most favorable time for our people to put in a word for Alachua.

We should be up and doing, if we desire to get people to locate here.

FLORIDA LOYALTY.

If President Roosevelt came to Florida to see whether the people were loyal to the head of the Government and the Government itself, he must have been more than satisfied with the patriotism manifested. But he could have found out the true sentiment by asking anyone who had ever visited Florida, for there is no denying the statement that the people of this State are as near to the flag as any in the Union.

Had the President been in Florida on last Fourth of July he would have been happily surprised to hear the children sing "Yankee Doodle," "The Star Spangled Banner" and many other patriotic songs. The people of Florida are certainly as loyal as any and they are loyal to all who come here to abide with them.

Wm. R. Hearst, the Municipal Ownership candidate for mayor of New York City, is making rapid gains on the other candidates. Mayor McClellan will no doubt be the winner on the Democratic ticket, but the battle will be fierce.

Actuary McClintock of the Mutual Life is certainly a great joker. He told the investigating committee that he considered the insurance laws of New York too severe.

DAILY AT LIVE OAK.

The last issue of The Suwannee Democrat, published at Live Oak, contains the following announcement:

"Beginning with Tuesday, November 7th, The Suwannee Democrat will begin the publication of a daily morning paper. Definite arrangements for the new publication have been made upon a scale and after a plan which will insure to this section of the State a daily paper in keeping with the development and progress of Live Oak. Every department will be carefully and comprehensively covered, and the greatest enterprise and care will be exercised in covering the local news field. The Daily Democrat will pursue the same policy it has followed in its efforts to assist in the growth and business, and industrial development of Live Oak and Suwannee county. The new daily is to be under the same management as The Weekly Democrat, the only acquisition to the staff being Mr. J. O. LaFontisee, formerly city editor of The Florida Times-Union, who is to have charge of the news department of the daily and who is to give his best efforts toward making The Daily Democrat the best daily paper in the State outside of Jacksonville and the other larger cities of Florida. Mr. LaFontisee has had extensive experience in fields of this character, and is known as one of the most progressive and enterprising newspaper men in the State.

"The Daily Democrat is to be launched by its founders with a full degree of confidence that it will meet with cordial as well as material support from the people of Live Oak and Suwannee county."

Our sister city is one of the most wide-awake in the State, and the daily will no doubt be given a hearty support. Mr. J. O. LaFontisee, who is to have charge of the news department, is well known to the people of Gainesville, where he passed many years and served The Sun as city editor, in which capacity he proved himself one of the best and most persistent workers, possessing marked ability in that line. He has won his spurs by dint of tireless labor in the line of work in which he has been engaged, and we assure the people of Live Oak that they have one of the ablest newspaper men in the State at the head of The Daily Democrat.

May success attend the efforts of the new enterprise is the hearty wish of The Sun.

ALFALFA.

The sowing of alfalfa has taken hold of the popular mind in the South, at last. We receive many inquiries by mail about the planting of this valuable crop and many personal inquiries as we travel around attending the farmers' institutes; so we do not think we can write about it too often, in view of its value as a food for all stock. We do not advise any one to begin on a large scale, but do advise all to plant from one to five acres, according to their means and number of stock. There is no crop in that responds to thorough clean work and high manuring like alfalfa. To secure a good stand you must have fine tilth, and to make it grow ahead of the weeds and grass the first year, until the roots get a firm hold in the soil, it requires liberal quantity of highly ammoniated manure. Stable manure and cotton seed are the best; in absence of these use guano at rate of six hundred pounds to the acre broadcast. If your land is deficient in vegetable matter or humus, you can use the "nitro fixing bacteria," but in rich land this is unnecessary. The only good we can see of this bacteria, is to help secure a stand in depleted lands. To sum up concisely, break your land deep, put on your manure broadcast, then harrow until it is as smooth and as fine as an ash bank, then sow your seed, from 10 to 15 pounds per acre, and roll the surface well. This will nearly always insure you a good stand.

Sow in September for fall or in February or March for spring. Cut it every time it blooms, no matter how often. Many lose their stand by allowing it to go to seed. You can cut from four to five times a year, and the oftener the greater yield you will get. If you do not get a good stand let it remain and next season disk with a cutaway harrow, resow and roll again, and thus you can make the stand perfect. Our advice is to start at once and learn by experience all about growing this valuable crop. Prof. Spillman says at Union, Alabama, they raise $75 worth of pork from ten acres of alfalfa the first year. The best way is to cut it and feed green, but you can turn hogs upon it by putting rings in their nose. You can graze cattle upon it also if you do not allow them to run on it long at a time and to eat it down close. If they bite the crown out, which forms just above the ground, it will kill it.—Florida Fruit and Truck Grower.

THE STATE UNIVERSITY.

Now that the educational affairs of the State are settled, it would be unfortunate on the part of Lake City to enter into a legal controversy over the matter, as it is said her citizens propose doing. It is all well enough to compete for the seat of the University, but it is quite another matter to try to compel the State to come to terms. The entire State has a kindly feeling for Lake City in her defeat in the contest, and her people ought to seek to hold that regard. As a law, the Buckman plan is a good one, quite aside from the location of the University, and it is to be hoped for the peace and prosperity of the educational interests of the State that strife will cease.—Orlando Reporter.

Owing to the fact that they will have other terms to complete, the Oregon Congressional delegation will not be able to serve their terms in Congress the coming session. Only one representative is able to get away. The rest have engagements with the State.

Those who are looking for a Democratic victory in the rural districts of Ohio, will look in vain. The Western Reserve will never change, no more than Bucks county, Pa., where they still vote for Hickory Jackson.

A man who resides at Emporium, Pa., has a hen worth keeping to guard his chicken coop. When thieves tried to rob the roost she squawked and awoke her owner, and the thieves got frightened and fled.

The Panama Canal Commission has appointed a press agent at $5,000 a year. Before they have been at work very long they will be willing to pay several times that for a good press censor.

COTTON GROWERS HOLDING STAPLE

Notwithstanding a Short Crop, Buyers Paying But Little.

THE PLANTERS WILL COMBINE

Will Come Together in Alachua Next Thursday for Purpose of Forming a Protective Association—Georgia and Florida Will be Represented.

Notwithstanding the fact that the production of cotton in the long staple or Sea Island belt is reported to be one-third short this season, it is also a fact that prices are lower for the staple than for several years. This condition of affairs should not exist, and the scarcity of cotton should have a tendency to increase rather than decrease the price.

It is intimated that the buyers have combined in an agreement on prices, although no one will venture to authenticate the statement. One gentleman from Alachua stated Saturday that a great deal of the cotton in that section is being held for better prices, and as a rule those holding the same have the advantage, in that they are not compelled to sell until the buyers decide to pay the prices asked. In the majority of cases the only growers selling are those who are under contract.

There has been ginned at Alachua so far this season about 1,100 bales, against 1,400 for the same period last year. The highest price paid so far this season, it is said, was eighteen cents, and the buyers have offered as low as fifteen cents per pound.

The long staple growers of Georgia and Florida expect to hold a meeting in Alachua on Thursday, November 2, when a protective association will be formed. The growers realize that the time has come when they must combine, if they expect to continue the cultivation of cotton to any financial advantage.

MR. ORR IS PLEASED.

Thinks Gainesville and Gainesville People Are "To the Good."

M. Judson Orr and family, who recently arrived in the city from Newburg, W. Va., are temporarily located at 400 West Mechanic street, where they will remain until Mr. Orr can secure possession of the property recently purchased, known as the Graham place, on the rock road, opposite the State University grounds

Mr. Orr is very much impressed with Gainesville and its people, and good-naturedly expresses himself that they are "to the good." He was here for a short time last winter, and was so well pleased that he purchased property. "I have traveled considerably throughout the country," he remarked Saturday. "I have visited many towns and cities, and if I did not believe Gainesville, from every standpoint, was about the best I have seen, I would not have my family here now."

Mr. Orr is a prominent man politically, and for years was chairman of the Republican executive committee of his county. Speaking of his departure The Preston Leader, published at Kingwood, W. Va., devotes over half a column, and in that portion which will be of interest to the people of this section says:

"M. Judson Orr and family of Newburg left Kingwood on Sunday evening for Terra Alta, where they remained until Monday, when they departed over the B. & O. for Gainesville, Florida, their future home.

"Mr. Orr was down there last winter and was so well pleased with the Sunny South that he purchased property and decided to cast his lot with the Southern people amid perpetual flowers."

PARK STOCK COMPANY

Will Open a Week's Engagement in This City on Monday.

The Chas. Park Theater Company, which pleased the people so well when here last February, will open a week's engagement on Monday night. In speaking of this company The Fitzgerald (Ga.) Enterprise says:

"The Park Stock Company will close their present engagement in this city tonight, when they will put on that interesting drama, "In Darkest Russia." They have played to crowded houses every night this week, and would continue to do so if they were to remain a month, as the members of the company are artists and give high-class entertainments. It is to be hoped that Manager Park will arrange to visit Fitzgerald again at an early date, and if he does he may rest assured of a hearty welcome from our citizens."

THE YELLOW FEVER.

Only a Few New Cases at Pensacola and New Orleans.

Pensacola, October 28.—Three deaths and three new cases is the noon record. The weather continues cool and a low record is looked for tonight. The situation as a whole is encouraging.

Pensacola again showed nine new cases for the twenty-four hours ending at 6 o'clock last night and two deaths. The work of the fumigating corps is progressing nicely.

At New Orleans.

New Orleans, October 28.—Less than thirty cases of yellow fever are now under treatment in this city, and most of them are mild. Today one new case was reported up to noon, with one death. Yesterday there were two new cases and four deaths. Total number of cases, 8,384; total number of deaths, 444.

INJUNCTION WAS DISSOLVED.

Case of Seaboard Air Line vs. Southern Bell Has Been Dismissed.

The Sun contained a day or two recently an article to the effect that the Seaboard Air Line had caused to be issued a bill of injunction against the Southern Bell Telephone and Telegraph Company, restraining that company from crossing the plaintiff's tracks with its lines at Starke.

Attorney Evans Haile, who represented the Southern Bell Company in the premises, stated Saturday that the injunction had been dissolved and the case dismissed.

WILL HAVE NEW HOME.

Golden Rule Bottling Works Will Soon Occupy New Building.

The Golden Rule Bottling Works will soon occupy a new home, a building now being erected for them on West Union street, between Garden and Pleasant.

This firm is one of the latest enterprises of Gainesville, but its success has been remarkable. The works are located at present on East Market street.

T. W. Nine is manager of the firm.

Death of a Good Man.

Robert Henson of Hawthorn, eighty years of age and one of the most widely known and highly respected citizens of the East End, died at his home on Thursday and was buried on Friday.

Deceased was a veteran of the Civil War, having served the Confederate cause faithfully and efficiently. He was a member of the Methodist church, and possessed of a generous, Christian character. He has been a resident of Hawthorn for nearly half a century, and his demise is regretted by a large circle of friends.

In the Mayor's Court.

John McCray, Rex Ross and Richard Roberson, who were arrested by Marshal Pinkoson upon a charge of disorderly conduct—fighting—Friday, were arraigned in the mayor's court Saturday morning. After weighing the evidence, McCray was fined $2.50 and costs, while Ross and Roberson were discharged.

For using profane and abusive language Mary Ransome, colored, was fined $5 and costs.

Sued for Leading Mob.

Cincinnati, O., Oct. 28.—A sensational suit, the echo of the lynching of William Thacker, at Flemingsburg, Ky., in 1903, was filed in the federal court of Covington yesterday by Mrs. Mary Thacker, the widow. She is suing George Gordon and other citizens of Flemingsburg for $50,000 damages for mobbing her husband, who had been indicted for the killing of the son of Gordon. In the affidavit some sensational allegations are set forth. The most sensational charge is the one made by Thomas Wallingford that an arrangement existed between the mob and the jailer, Morris, to get the keys.

Cleveland Visits Nebraska.

Princeton, N. J., Oct. 28.—Ex-President Grover Cleveland, left here for Nebraska City, Nebr., where Mr. Cleveland will deliver an address on the occasion of the unveiling of a monument to the late J. Sterling Morton, secretary of agriculture in Mr. Cleveland's second cabinet. Mr. Cleveland will return to Princeton Oct. 31.

ROGERS WILL WORK FOR THE CONVENTION

Wants the Southern Baptists to Meet in Florida Next Year.

A MAMMOTH ORGANIZATION

Membership Represents Every Section of Southern States, and Comprises 8,000—Meeting to be Held in Jacksonville Today.

From Friday's Daily Sun.

Rev. S. B. Rogers, pastor of the First Baptist Church of this city, expects to make his departure for Jacksonville this morning, where he has been summoned to meet a committee appointed from the State for the purpose of securing the next session of the Southern Baptist Convention. This convention comprises 8,000 delegates, representing every section of the South, and means a great deal financially to the section in which the meeting is held, inasmuch as it is not a charitable proposition, the delegates paying their own way.

"There is no reason why this convention could not and should not be held in Florida," remarked Mr. Rogers, who is at the head of the work of the Southern Association in this State. "At the last convention it was decided not to hold a meeting in future at any point where an auditorium insufficient for accommodating the convention would be furnished. This is apparently a difficult proposition, as a building capable of accommodating eight thousand people looks upon its face to be rather expensive. But we do not wish a fine structure. All we want is an auditorium sufficient for our demands, and a building of rough boards, so long as it is comfortable and properly arranged, will suit our needs. It would pay Jacksonville, Gainesville or any other city, to erect a rough building of this kind for the distinction and financial benefit that would accrue."

Mr. Rogers believes that the next Southern convention will be held in Jacksonville, as he feels that the progressive citizens of that city will come to the rescue with the funds for the erection of the proper building.

THE MINISTERIAL SOCIETY.

Interesting Meeting Held at the Court House Tuesday Evening.

In compliance with the call published in The Sun, the Ministerial Association convened at the court house Tuesday evening for the purpose of forming or organizing a charity branch of the association.

The meeting was called to order by Rev. Thos. P. Hay, chairman of the association, when Rev. S. B. Rogers of the First Baptist Church, who has always been an active worker, explained the purposes of the same.

The question of the organization of a charity branch of the association was discussed, and it was decided to organize an administrative board. As members of this board the chair appointed C. Matheson, chairman, Ferd Bayer, Dr. J. Prescott Bullock, and Mrs. John W. Tench.

Rev. T. J. Nixon of the First Methodist Church, Rev. S. B. Rogers and Dr. Bullock were appointed to draft by-laws governing the administrative board, said by-laws to be presented at the next meeting for approval.

The chairman was requested to appoint a committee on membership for the charitable association. This committee has not yet been announced, Mr. Hay reserving the privilege of making the appointments later.

There being no further business, the meeting adjourned.

QUEER FREAK OF NATURE.

Ground Sank in Alachua, Making Perfect Well Fifty Feet Deep.

It has long been a matter of history, the peculiar formation of the soil in certain sections of the State, particularly in some locations in Alachua county, which results sometimes of the depression of the earth in a dimension ranging in a few feet to several hundred feet. Many demonstrations of this character have been made, in a few instances the earth sinking to a distance of two hundred feet.

One of the most recent of these peculiarities occurred in Alachua recently, when the earth suddenly sank, making a depression about fifty feet deep and five feet in diameter at the top, gradually deminishing to about three feet at the bottom. The sink created a great deal of interest in Alachua at the time, many people visiting the scene, but now it is a "thing of the past," and no attention is paid to it.

The superstitious darky, of which Alachua has its share, declares that the place is haunted, and that it is the work of His Satanic Majesty. They have been heard to remark that all kinds of strange and mysterious noises are heard at dismal hours in the early morning, but no white person has ever admitted that such was the case.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shores of despondency, when I began to take Electric Bitters for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

Fair! Fair!! Fair!!!

Fair notice is hereby given to exhibitors. The train for cows and horses will leave Gainesville Saturday, November 11th. Hogs, sheep, goats and calves (in crates only) can be sent from the nearest station to the exhibitor. Turkeys, geese, ducks and chickens, and all animals not weighing when crated over 100 pounds, can be sent by express, and must be shipped not later than Monday, November 13th. Cane, potted plants and perishable things must also be sent not later than Monday, November 13th. Every District Commissioner has been sent a supply of shipping tags, and no other can be used according to directions of the President of the Fair Association. On boxes, barrels and crates use two tags, one with black print up, and one with red print up. Tack on securely. If you wish to sell your exhibits in Tampa, state your price in the small square on all red letter side of tags, and if I can find a purchaser I will help you to sell.

If you want more tags write me at once. Cut this out and refer to it often.

Yours truly,

The $50,000 educational bonds recently voted by the city of Gainesville have been sold, the purchasers being the First National Bank of Gainesville and the banking house of H. F. Dutton & Co., these firms taking $25,000 each.

The bonds brought 101½, and are payable in ten, twenty and thirty years, as provided in the ordinance.

E. Baird, J. S. Bodiford, and C. Matheson composed the board who floated the bonds.

These bonds will be used for educational purposes only, and the purpose is to devote the funds towards the University of Florida.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

INDUSTRIAL EDITION.

The Sun's Many Friends Will be Pleased With It.

The many friends of The Sun and the entire populace of Alachua county will be pleased with our Industrial Edition, which is now being prepared for issue on November 16th. The illustrated features will be of interest to all, and facts regarding Alachua county will set forth its resources in their true light, and show to the world what we have here in both soil and climate.

The business men of Gainesville have taken much interest in the work, by way of advertising, and we appreciate the public spirit manifested. A card in this publication will come before thousands of readers, so if you have been overlooked by our solicitor, come to The Sun office and we will arrange to give you space in its columns, if you are desirous of publicity.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

While Drilling a Well at Windsor Pipe and Drill Were Lost.

George Byles of Windsor, a progressive merchant of that town, was a visitor to this city Thursday. Mr. Byles relates an interesting story of a well which was being driven by E. T. Finklea, near Windsor recently. He states that Mr. Finklea, who was anxious for a water supply for irrigation purposes, drove the well to a distance of about 300 feet, when in one night the piping sank and has never been recovered. A drill was placed again in the well, when the same was lost and all efforts at recovery have been unsuccessful. This is evidence that the formation of the earth at this point, as in many other places in Alachua county and this section of the State, is of crest, and is undermined. The well in question up to the time of the disappearance of the pipe gave a prolific supply, the water coming to within twenty feet of the surface. The well is now perfectly dry, and it has been impossible to find a sounding in the two-inch hole which was the original drilling.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

The Hicks Almanac for 1906.

The Rev. Irl R. Hicks' Almanac will not be published for 1906, but his monthly journal, Word and Works, has been changed into a large and costly magazine, and it will contain his storm and weather forecasts and other astronomical features complete. The November number, now ready, contains the forecasts from January to June, 1906. The January number, ready December 20th, will contain the forecasts from July to December, 1906. The price of this splendid magazine is one dollar a year. See it and you will have it. The November and January numbers containing the Rev. Irl R. Hicks' forecasts for the whole year, and more complete than ever, can be had by sending at once 25 cents to Word and Works Publishing Company, 2201 Locust street, St. Louis, Mo.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

DONNIE DOINGS.

A Sad Death—School Matters and Other Local News.

Donnie, Oct. 26.—Cherry Sink school opened this morning under the management of Wiley Tillman and Miss Becky Rutledge—two as fine teachers as the county affords—and we trust that they will be successful in their good work.

R. L. Tison, one of the shrewdest cotton buyers of our section, is doing a fine trade in the ginning business.

J. G. Osteen is doing a very fine business in the mercantile line and has a very pretty stock of fall and winter goods. Call and see him.

Cotton is down and everybody that has not sold feels sick over it, as the price is very low.

At the home of Mr. and Mrs. J. D. Wilkerson, Oct. 21, the angel of death came knocking at the door and bore to the heavenly home of rest the sweet little baby girl, Lola. Its remains were laid to rest in Yular cemetery. The many relatives and friends all join in extending sympathy in their sad hour of bereavement.

Full of Tragic Meaning

Are these lines from J. H. Simmons of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At all druggists; guaranteed; 50c and $1.00. Trial bottle free.

LAND OFFICE BUSY.

Numerous People Visited This City on Public Land Business Wednesday.

The demand for public or Government lands seems to be steady, and each month many homesteads are being taken up by new settlers, and others who have been in the State long enough to appreciate what really good land may be secured through the Government homestead act.

Among those who were here Wednesday to enter homesteads and make final proofs were D. F. Bennett of Montbrook, Lee T. Fowler of Bronson, and James Welch and Joseph L. Pope of Bell. These gentlemen are desirous of showing the possibilities of the Government soil, and have gone to work in earnest. It goes without saying that they will make a success.

A Card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe cough and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. J. W. McCollum & Co.

A Successful Farmer.

Chas. McKinney of Graham was a visitor to the city yesterday. Mr. McKinney is what might be called a successful farmer in every sense of the word, making about all the necessities of life on his place, with plenty to spare for market. Among his staple crop he has twelve acres of sweet potatoes, and from three-fourths of an acre he has already realized $150 in sales. He believes in sweet potatoes, and declares he will plant twenty acres next year. He also makes fine syrup which sells readily on the market. He expects to make this year several barrels, and has disposed of eight barrels for future delivery.

CATARRH

FIRST A COLD THEN CATARRH THEN CONSUMPTION

A cold in the head is a common ailment, but it rarely ever stops there. It often grows stubborn and protracted, the mucous membranes, or inner lining of the body, become inflamed and secrete a filthy, unhealthy matter which is absorbed by the blood and soon produces that disgusting disease, Catarrh. Then follow the unpleasant symptoms of "hawking and spitting," ringing noises in the ears, headache, poor appetite, mucus dropping back into the throat, and a feeling of general debility. Every day the blood becomes more heavily loaded with these poisonous secretions, and if the trouble is allowed to run on, the lungs become diseased from the constant passage of poisoned blood through them, and then Catarrh terminates in the most dreaded and fatal of all diseases, Consumption. The only way to get rid of Catarrh permanently is to cleanse the blood, and S. S. S. is the ideal remedy for this purpose. It soon clears the system of all impurities, purges the blood of all Catarrhal matter and poisons, and effectually checks the progress of this dangerous and far-reaching disease. S. S. S. keeps the blood in perfect order so that Catarrh cannot remain; and as this pure, healthy blood goes to every nook and corner of the body, the entire system is strengthened and invigorated, and the symptoms all pass away. Book with information about Catarrh and medical advice free.

I had Catarrh for twelve years and suffered agony with headaches, nose stopped up, appetite poor, felt tired and run-down and unfit for work. I read of S. S. S. and commenced its use, and after taking eleven bottles I found myself a well man. I have never had any return of the disease and I consider S. S. S. the best treatment in the world for Catarrh.

ROGERS WILL WORK FOR THE CONVENTION

Wants the Southern Baptists to Meet in Florida Next Year.

A MAMMOTH ORGANIZATION

Membership Represents Every Section of Southern States, and Comprises 8,000—Meeting to be Held in Jacksonville Today.

From Friday's Daily Sun.

Rev. S. B. Rogers, pastor of the First Baptist Church of this city, expects to make his departure for Jacksonville this morning, where he has been summoned to meet a committee appointed from the State for the purpose of securing the next session of the Southern Baptist Convention. This convention comprises 8,000 delegates, representing every section of the South, and means a great deal financially to the section in which the meeting is held, inasmuch as it is not a charitable proposition, the delegates paying their own way.

"There is no reason why this convention could not and should not be held in Florida," remarked Mr. Rogers, who is at the head of the work of the Southern Association in this State. "At the last convention it was decided not to hold a meeting in future at any point where an auditorium insufficient for accommodating the convention would be furnished. This is apparently a difficult proposition, as a building capable of accommodating eight thousand people looks upon its face to be rather expensive. But we do not wish a fine structure. All we want is an auditorium sufficient for our demands, and a building of rough boards, so long as it is comfortable and properly arranged, will suit our needs. It would pay Jacksonville, Gainesville or any other city, to erect a rough building of this kind for the distinction and financial benefit that would accrue."

Mr. Rogers believes that the next Southern convention will be held in Jacksonville, as he feels that the progressive citizens of that city will come to the rescue with the funds for the erection of the proper building.

THE MINISTERIAL SOCIETY.

Interesting Meeting Held at the Court House Tuesday Evening.

In compliance with the call published in The Sun, the Ministerial Association convened at the court house Tuesday evening for the purpose of forming or organizing a charity branch of the association.

The meeting was called to order by Rev. Thos. P. Hay, chairman of the association, when Rev. S. B. Rogers of the First Baptist Church, who has always been an active worker, explained the purposes of the same.

The question of the organization of a charity branch of the association was discussed, and it was decided to organize an administrative board. As members of this board the chair appointed C. Matheson, chairman, Ferd Bayer, Dr. J. Prescott Bullock, and Mrs. John W. Tench.

Rev. T. J. Nixon of the First Methodist Church, Rev. S. B. Rogers and Dr. Bullock were appointed to draft by-laws governing the administrative board, said by-laws to be presented at the next meeting for approval.

The chairman was requested to appoint a committee on membership for the charitable association. This committee has not yet been announced, Mr. Hay reserving the privilege of making the appointments later.

There being no further business, the meeting adjourned.

QUEER FREAK OF NATURE.

Ground Sank in Alachua, Making Perfect Well Fifty Feet Deep.

It has long been a matter of history, the peculiar formation of the soil in certain sections of the State, particularly in some locations in Alachua county, which results sometimes of the depression of the earth in a dimension ranging in a few feet to several hundred feet. Many demonstrations of this character have been made, in a few instances the earth sinking to a distance of two hundred feet.

One of the most recent of these peculiarities occurred in Alachua recently, when the earth suddenly sank, making a depression about fifty feet deep and five feet in diameter at the top, gradually deminishing to about three feet at the bottom. The sink created a great deal of interest in Alachua at the time, many people visiting the scene, but now it is a "thing of the past," and no attention is paid to it.

The superstitious darky, of which Alachua has its share, declares that the place is haunted, and that it is the work of His Satanic Majesty. They have been heard to remark that all kinds of strange and mysterious noises are heard at dismal hours in the early morning, but no white person has ever admitted that such was the case.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shores of despondency, when I began to take Electric Bitters for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

Fair! Fair!! Fair!!!

Fair notice is hereby given to exhibitors. The train for cows and horses will leave Gainesville Saturday, November 11th. The $50,000 educational bonds recently voted by the city of Gainesville have been sold, the purchasers being the First National Bank of Gainesville and the banking house of H. F. Dutton & Co., these firms taking $25,000 each.

The bonds brought 101½, and are payable in ten, twenty and thirty years, as provided in the ordinance.

E. Baird, J. S. Bodiford, and C. Matheson composed the board who floated the bonds.

These bonds will be used for educational purposes only, and the purpose is to devote the funds towards the University of Florida.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

INDUSTRIAL EDITION.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

A PECULIAR FORMATION.

While Drilling a Well at Windsor Pipe and Drill Were Lost.

George Byles of Windsor, a progressive merchant of that town, was a visitor to this city Thursday. Mr. Byles relates an interesting story of a well which was being driven by E. T. Finklea, near Windsor recently. He states that Mr. Finklea, who was anxious for a water supply for irrigation purposes, drove the well to a distance of about 300 feet, when in one night the piping sank and has never been recovered. A drill was placed again in the well, when the same was lost and all efforts at recovery have been unsuccessful. This is evidence that the formation of the earth at this point, as in many other places in Alachua county and this section of the State, is of crest, and is undermined. The well in question up to the time of the disappearance of the pipe gave a prolific supply, the water coming to within twenty feet of the surface. The well is now perfectly dry, and it has been impossible to find a sounding in the two-inch hole which was the original drilling.

The November number, now ready, contains the forecasts from January to June, 1906. The January number, ready December 20th, will contain the forecasts from July to December, 1906. The price of this splendid magazine is one dollar a year. See it and you will have it. The November and January numbers containing the Rev. Irl R. Hicks' forecasts for the whole year, and more complete than ever, can be had by sending at once 25 cents to Word and Works Publishing Company, 2201 Locust street, St. Louis, Mo.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

DONNIE DOINGS.

A Sad Death—School Matters and Other Local News.

Donnie, Oct. 26.—Cherry Sink school opened this morning under the management of Wiley Tillman and Miss Becky Rutledge—two as fine teachers as the county affords—and we trust that they will be successful in their good work.

R. L. Tison, one of the shrewdest cotton buyers of our section, is doing a fine trade in the ginning business.

J. G. Osteen is doing a very fine business in the mercantile line and has a very pretty stock of fall and winter goods. Call and see him.

Cotton is down and everybody that has not sold feels sick over it, as the price is very low.

At the home of Mr. and Mrs. J. D. Wilkerson, Oct. 21, the angel of death came knocking at the door and bore to the heavenly home of rest the sweet little baby girl, Lola. Its remains were laid to rest in Yular cemetery. The many relatives and friends all join in extending sympathy in their sad hour of bereavement.

Full of Tragic Meaning

Are these lines from J. H. Simmons of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At all druggists; guaranteed; 50c and $1.00. Trial bottle free.

LAND OFFICE BUSY.

Numerous People Visited This City on Public Land Business Wednesday.

The demand for public or Government lands seems to be steady, and each month many homesteads are being taken up by new settlers, and others who have been in the State long enough to appreciate what really good land may be secured through the Government homestead act.

Among those who were here Wednesday to enter homesteads and make final proofs were D. F. Bennett of Montbrook, Lee T. Fowler of Bronson, and James Welch and Joseph L. Pope of Bell. These gentlemen are desirous of showing the possibilities of the Government soil, and have gone to work in earnest. It goes without saying that they will make a success.

A Card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe cough and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. J. W. McCollum & Co.

A Successful Farmer.

Chas. McKinney of Graham was a visitor to the city yesterday. Mr. McKinney is what might be called a successful farmer in every sense of the word, making about all the necessities of life on his place, with plenty to spare for market. Among his staple crop he has twelve acres of sweet potatoes, and from three-fourths of an acre he has already realized $150 in sales. He believes in sweet potatoes, and declares he will plant twenty acres next year. He also makes fine syrup which sells readily on the market. He expects to make this year several barrels, and has disposed of eight barrels for future delivery.

Mothers

Who would keep their children in good health should watch for the first symptoms of worms, and remove them with White's Cream Vermifuge. It is the children's best tonic. It gets digestion at work so that their food does them good, and they grow up healthy and strong. Sold by W. M. Johnson.

CATARRH

FIRST A COLD THEN CATARRH THEN CONSUMPTION

A cold in the head is a common ailment, but it rarely ever stops there. It often grows stubborn and protracted, the mucous membranes, or inner lining of the body, become inflamed and secrete a filthy, unhealthy matter which is absorbed by the blood and soon produces that disgusting disease, Catarrh. Then follow the unpleasant symptoms of "hawking and spitting," ringing noises in the ears, headache, poor appetite, mucus dropping back into the throat, and a feeling of general debility. Every day the blood becomes more heavily loaded with these poisonous secretions, and if the trouble is allowed to run on, the lungs become diseased from the constant passage of poisoned blood through them, and then Catarrh terminates in the most dreaded and fatal of all diseases, Consumption. The only way to get rid of Catarrh permanently is to cleanse the blood, and S. S. S. is the ideal remedy for this purpose. It soon clears the system of all impurities, purges the blood of all Catarrhal matter and poisons, and effectually checks the progress of this dangerous and far-reaching disease. S. S. S. keeps the blood in perfect order so that Catarrh cannot remain; and as this pure, healthy blood goes to every nook and corner of the body, the entire system is strengthened and invigorated, and the symptoms all pass away. Book with information about Catarrh and medical advice free.

I had Catarrh for twelve years and suffered agony with headaches, nose stopped up, appetite poor, felt tired and run-down and unfit for work. I read of S. S. S. and commenced its use, and after taking eleven bottles I found myself a well man. I have never had any return of the disease and I consider S. S. S. the best treatment in the world for Catarrh.

What Has Happened and What is Going to Happen Told in Short Paragraphs So That "He Who Runs May Read" It in The Sun.

From Friday's Daily Sun.

Edwin Reese of Kirkwood was trading in the city yesterday.

Mrs. M. P. Grover of Micanopy was shopping in the city yesterday.

400 bushels Texas seed oats for sale. J. O. Andrews, Gainesville, Fla.

A. C. Edwards of Trenton was among the visitors to this city yesterday.

Tie choppers wanted at 14 cents per tie. J. D. Barron, Jr., Wannee, Fla.

There are several cases of dengue fever about the city, but it is not serious.

Chas. W. Stephens of Alachua was among the business visitors to this city yesterday.

George Dyal, a merchant of Montecoha, was transacting business in this city yesterday.

Mrs. A. L. Saunders of Trenton is in the city, a guest of Mesdames W. W. Colson and S. G. Gay.

Mrs. Frank LaFontisee of Miami is in the city, a guest of her parents, Mr. and Mrs. M. S. Cheves.

Mesdames E. A. Collie and J. A. Jones of High Springs favored Gainesville with a visit yesterday.

R. F. Beckham of Orange Heights was in the city yesterday on business connected with the office of county clerk.

For Sale—Two and one-half acre lot in West Gainesville, near the University grounds. Mrs. Kate S. Britt, Central, Fla. 8t

W. M. Davidson of High Springs, more familiarly known among his friends as "Shorty," was among the business visitors to this city yesterday.

Mrs. H. A. Fisher and daughter, Miss Susie, have returned from Boswell, Ind., where they spent the summer delightfully with relatives and friends.

Born, to Mr. and Mrs. W. H. Gay of Trenton recently, a fine boy. Mr. Gay, the proud father, is a "youth" of sixty-five, and is very proud of his new son. His friends extend congratulations.

Nicholas Bures has returned from Waldo, where he went on Tuesday to arrange for the opening of a pool room. Mr. Bures has a number of tables which have been inactive, and decided to try Waldo as a speculation.

The store buildings recently constructed by J. P. Bauknight, on East Union street, rear of Pournell & Sons, are completed, and, while comparatively small, are among the neatest in the city. They will make excellent office rooms.

J. W. Drummond and Murph Everett of Dunnellon, after a day spent on business in Gainesville, returned to their home yesterday. As was stated in The Sun of Wednesday, they are engaged in the crosstie business on the Suwannee river.

Judge Mason yesterday issued marriage licenses to Eddie Scott and Rachael Gregory, C. West and Bessie Denser, J. R. Jones and Katie Dell. The thermometer is falling, and the genial Judge expects a great rush within the next few weeks.

N. A. Callison, manager of Spring Park Farm, Bennington, was in the city yesterday, and made The Sun an agreeable call. Mr. Callison is preparing to take to the State Fair at Tampa an exhibit of fine registered stock which may take first premium. He has some of the finest stock in the South.

S. J. Kennard, formerly of this city but now residing in Fernandina, shows that he is interested yet in this section by having his name enrolled upon the subscription list of The Sun. Mr. Kennard is well pleased with Fernandina, but retains fond memories of his old home here. Friends will be glad to learn that he is doing well.

Deputy Sheriff J. H. Granger left yesterday for High Springs, Wade and other points with the list of jurors who have been drawn for the fall term of the circuit court. His business is to summon these jurymen, commanding them to appear at the proper time. Court convenes on November 13, and a list of the jurors will be found elsewhere in this paper.

A hunting party composed of P. M. Oliver and two or three friends returned yesterday from Santelaska hammock, where they have been for the past two or three days. They report big luck, having killed all the quirrels and wild game they could eat, bringing back a quantity to friends. The Santelaska forest has an abundance of game of all kinds this season.

The remains of Mrs. W. D. Fagan were taken yesterday to Providence, her old home, where the funeral services were held, and the interment was made in the Providence burying ground, where relatives are buried. The death of Mrs. Fagan brings sorrow to many Gainesville friends, where she was highly esteemed for her charitable, Christian-like disposition, and she will be greatly missed here.

C. W. Bauknight of Archer, one of the leading merchants of that progressive town, was in the city yesterday and made The Sun an agreeable business call. He reports trade very good, but, with "the rest of the folks," complains of the low prices of cotton, as it deprives the grower of real value of the staple. Cotton, considering the shortage of crop, is lower this season than for many years. Growers who can afford to do so will hold their output.

L. E. Black and a party of friends decided to take a fishing trip early yesterday morning, and accordingly arose early and proceeded to Alachua sink, which is conceded to be one of the finest fishing grounds in the State. The party was favored with unprecedented luck, having caught with hook and line fifty-seven pounds of fine fish in just one hour. Mr. Black, who is visiting here from Tampa, is very much impressed with this city and section, and may decide to locate here. He is an enthusiastic sportsman, and one of the most accurate shots in the State.

From Saturday's Daily Sun.

READ THIS.

Mobile, Ala., Dec. 24, 1899.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: Having tried different doctors and their remedies for several years for back and kidney troubles, I found nothing successful until taking "The Texas Wonder," Hall's Great Discovery, and, being rapidly cured, the old saying with railroad men is "God bless the man who invented the Pullman sleeping car," but I say "God bless the inventor of Hall's Texas Wonder."

Yours truly,
W. B. Clark,
M. & O. R. R. Co., Mobile, Ala.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 620, St. Louis, Mo. Send for testimonials. Sold by all druggists.

N. W. Littlefield of Blackshear, Ga., representing the A. P. Brantley Company, cotton buyers, was at the Brown House yesterday. Mr. Littlefield was connected with the firm of Dutton & Co., this city, for several years, and has many friends here who are always glad to see him.

W. H. Lipscombe of the Singer Sewing Machine Company left yesterday for Ward City, where last night he attended the meeting of the Ward City camp, Woodmen of the World. Organizer Dame of Ocala was also present, and the mysteries of the order were conferred upon several candidates.

Information has been received here of the death of William E. Harrington, eighty years of age, which occurred at Marlboro, Mass., recently. Deceased formerly resided near the Devil's Millhopper, and was well known in that section, also in Gainesville. The news of his death will be learned with regret by his friends here.

The ladies of Kirby Smith Chapter, United Daughters of the Confederacy, request The Sun to state for the benefit of those who so generously assisted them in securing the library by their votes, that the library will be presented to the University High School as soon as a committee is appointed, the result declared, and the books delivered.

From Sunday's Daily Sun:

Homer Love of Trenton was a business visitor to Gainesville yesterday.

W. D. Tillman of Rochelle was a visitor to the county capital yesterday.

J. L. Feaster of Rochelle was among the business visitors to Gainesville yesterday.

THE GAME LAW.

Quantity of Game Diminished by Amendment of Former Law.

Inasmuch as the hunting season is now on and many sportsmen are not familiar with the game law as amended and passed at the last session of the Legislature, for the information of those interested it may be said that the law provides twenty birds per day to each gun, but no party of hunters will be permitted to kill more than forty birds, regardless of the number in the party.

The original law provided twenty-five birds to the gun, and not exceeding fifty birds to the party, in one day.
